

GFC 29:9 CONSULTING

VETERAN-LED DEFENSE CONSULTING & MISSION SOLUTIONS

Turning Operational Challenges into Mission-Ready Capabilities

COMPANY OVERVIEW

GFC 29:9 Consulting LLC is a veteran-led defense consulting and mission-solutions firm helping Army, DoD, government, and industry partners translate complex operational needs into executable requirements, integrated plans, and mission-ready capability pathways.

CORE COMPETENCIES

> Information Warfare & Information Advantage

Planning and integration of information-related capabilities, decision advantage, assessments, governance, and information sharing.

> Army Modernization & Requirements

Campaigns of Learning, DOTMLPF-P analysis, capability assessments, requirements development, experimentation, and transition.

> Cyber & Electromagnetic Warfare Integration

Operational planning and synchronization of cyber, EW, MISO, strategic communication, and related capabilities.

> Program & Mission Management

Stakeholder engagement, risk management, performance oversight, and disciplined execution of complex mission programs.

> Emerging Technology Integration

Technology scouting, operational testing, evaluation, requirements alignment, and capability adoption.

> Executive Advisory & Organizational Excellence

Senior-leader decision support, strategic planning, change enablement, team effectiveness, and leader development.

SELECTED EXPERIENCE

- Directed operational testing and evaluation of **15 emerging cyber and information technologies**, informing a **\$12.4 million Army procurement decision**.
- Managed and advised on an Army cyber-modernization portfolio exceeding **\$100 million**.
- Coordinated capability engagement with **15+ commercial technology companies** and senior Army stakeholders.
- Supported Army Information Advantage modernization, Next Generation C2, Transforming in Contact, and related requirements and experimentation efforts.

WHY GFC 29:9

- 33+ years of Department of Defense and national-security experience
- Senior-level attention with small-business agility
- Operational, requirements, modernization, and acquisition fluency
- Strategy-to-execution focus grounded in measurable mission outcomes
- Trusted partnership built on integrity, service, and disciplined stewardship

LEADERSHIP

Larry Parr
